Product Introduction

PU stone is a new type of lightweight and environmentally friendly wall decoration board, mainly composed of highdensity polyurethane material, made through special processes. It is not only durable and sturdy, but also thermally insulated. Its texture is light, sturdy, durable, and does not fall off. Its color is uniform, and its threedimensional surface has a true stone appearance. The dry hanging construction method without cement can be easily completed.

Its advantages are: light weight, easy transportation, and easy installation. In terms of design applications, it can be applied to almost any commercial, home, and work equipment anywhere.

Product Features

Fast: The direct installation time and the time required for the entire project are much shorter, far less than the installation time of traditional cultural stones.

Lightweight: Due to the use of high-tech materials, it is lightweight and does not require the cooperation of other machinery. It can be installed by a single person.

Durable: The product is composed of polymer materials and sprayed with multiple layers of high-strength coatings, making it acid resistant, sun resistant, and UV resistant, making it more durable to use.

Easy to install: The product is designed as an internal card structure with tongue edges, grooves, and reserved seams. Most jobs do not require caulking and can be installed directly with screws or gun nails.

Real Appearance: The product mold is finely polished based on real stones, and special processing techniques make the appearance of the product more delicate, just like real stones.

PU Earthen Tile Panel

Specification: 1200×180×35mm

Material: Polyurethane

Carton Size: 1220×340×220mm

Packing: 12pcs/19kg

Layout A

01-Victoria White 02-cement gray 03-Roman black

The Picture Is For Reference Only

PU Castle Stone

Specification: 1200×300×30mm

Material: Polyurethane

Carton Size: 1250×350×230mm

Packing: 6pcs/11.5kg

Layout A

01-Victoria White

02-Desert yellow

Color Customization

Color can be customized, support to map to sample customization!

1. Draw a horizontal line on the wall.
安

2. Put the starter strip on the bottom of the wall. 在墙底装水平条

3. Install the first panel from the left bottom.
从墙底左侧开始安装第一块板

4. Lay the panels down to up, left to right, fix the panels with screws on the joints.
从左至右, 由下至上安装, 用螺丝固定

5. Check if the panels are horizontal with a level during installation.
安装过程中用水平尺测量是否平整

6. Keep on installing the panels, corners and top lines.
完成安装墙板、转 边

7. Cut the panel with a saw if necessary.
用手锯或电锯切割

8. Drill the screw through the center of the joints to the wall
打螺丝的时候在舌边的中间打入

9. Upper panel interlocks with lower panel, screws are invisible
上板内扣下板, 安全牢固, 隐藏螺丝

结构胶 (Structural adhesive)

手工锯 (Hand saw)

水平仪 (Level gauge)

卷尺 (Tape measure)

螺丝钉 (Screw)
