PET循环立体系列
Cyclic Stereoscopic Series

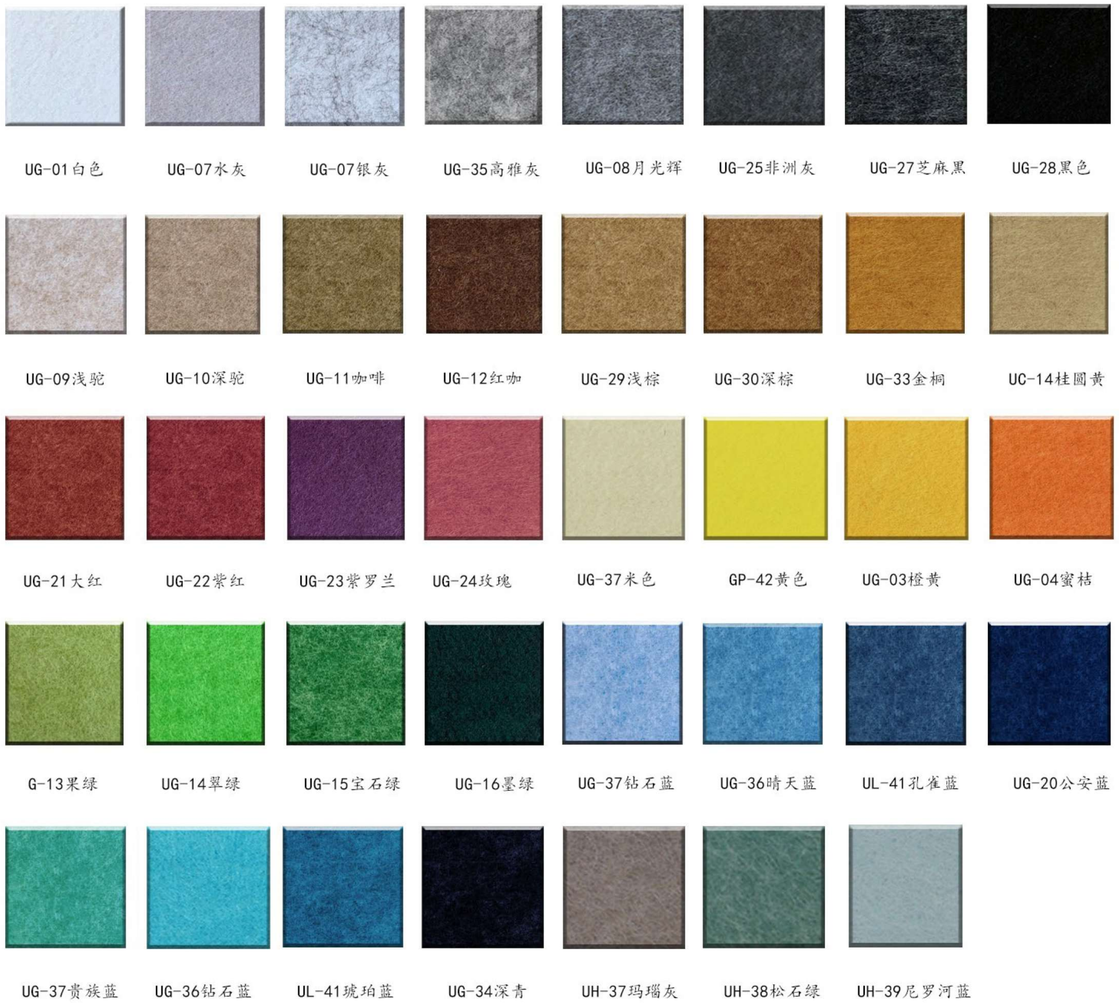

彩纤吸音板，优选原材料，有效减少生活噪音，造型独特，色彩丰富，安装简易，富含美学创意，深受家装、工装设计师喜爱，广泛运用于商务办公，别墅影院，酒店及各类教育和公共机构项目。

color fiber sound-absorbing panel, optimized raw materials, effectively reduce noise. Unique shape, aesthetic creativity, colorful, easy to install, highly loved by designers. A wide range of Used in business office, villa cinema, hotel and a variety of educational and institutional projects.

专业设计团队|色彩丰富高端定制

Can be used on wall | Ceiling | Partition
Short processing cycle | Easy installation

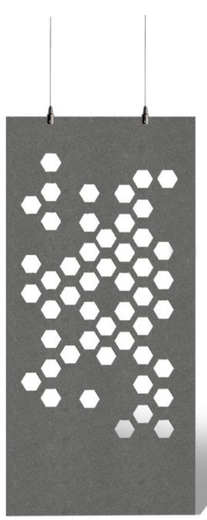

规格:
•基材:100%聚酯纤维吸音板
•厚度:9mm-12mm
•密度:1.9-2.4/平方米
Specifications:
• Core Material: 100% polyester fiber acoustic panel
• Thickness: 3mm-24mm
• Density: 650-3300g/sqm

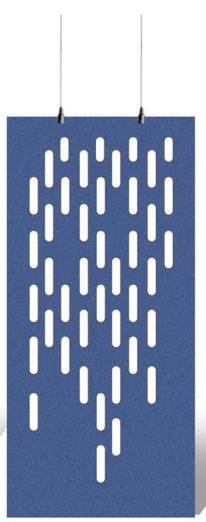

PET镂空装饰吸音板
PET Perforated Sound Board

聚酯纤维材料具轻体性，穿孔后，更加轻盈，通过开孔处理，声音传播达到板材表面小孔，使其增加声音反弹次数，内部消融。吸音降噪更加出色，优颂数字化分析声学衰减规律，对圆孔进行合理化分布，整洁美观，使其更具有装饰性。

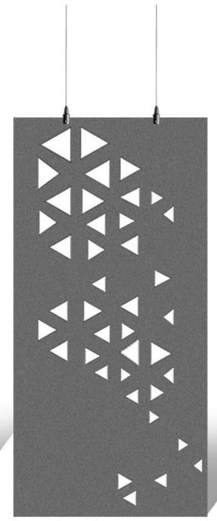

PET is light, and after perforation, it is lighter. Through the treatment of perforation, the sound propagation reaches the small hole on the surface of the plate, making it increase the sound rebound times, internal ablation. Better sound absorption and noise reduction, digital analysis of acoustic attenuation law, reasonable distribution of round holes, clean and beautiful, make it more decorative.

钟乳石吸音隔断
PET-Stalactite sound absorbing partition

专为公共办公区域，大空间，商场，以及家具展厅等场所设计了极具创意的隔断系列，统一的造型，通过颜色变化，大小长短变化，实现渐变的视觉效果，让空间在降噪的过程中充满生机，吸音的同时也有了极好的装饰效果。

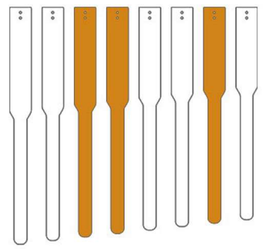

specially designed creative partition series for public office areas, large Spaces, shopping malls, furniture exhibition halls and other places, unified shape, through color change, size change, achieve gradual visual effect, so that the space is full of vitality in the process of noise reduction, sound absorption at the same time has excellent deco rative effect.

立体板悬挂组合

便捷的组装方式，让立体吸音板有了更具创意的运用，增加办公空间的区域性，和独立私密性。

Convenient assembly method, easy installation, let the stereo sound-absorbing panel.There is a more creative application to increase the regionality of the office space, and independent privacy.

PET悬挂装饰屏风
PET Hanging Decorative Screen

Size:360mm/300mm

该产品由聚酯纤维模具压制而成，是一款基于六边形的模块化系统，图案别具一格。
它固定在直立或倾斜的铝导轨上，安装在天花或者墙壁上。颜色和造型自由组合，
形成一道靓丽的风景隔断。

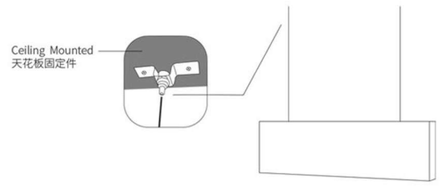

This product is made by pressing polyester fiber molds and is a modular system based on hexagonal shapes, with unique patterns. It is fixed on upright or inclined aluminum rails and installed on ceilings or walls. The combination of colors and shapes creates a beautiful landscape partition.

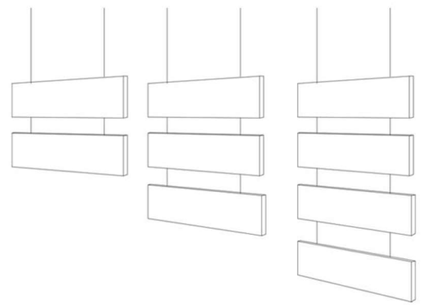

悬挂吸音软包
Sound-absorbing soft panel

USONG布艺软包，采用100%高密度聚酯纤维板为基材，边缘和饰面平整。优选的高弹棉麻布料，0.5 毫米 TC复合层，柔软贴合，精致加工，色泽淡雅，巧妙组合配饰，简约方便，可用作墙壁，悬挂隔板，桌面屏风等。

USONG fabric soft panel, using 100% high-density polyester fiberboard as the base material, high flatness of corners and finishes.Optimized high-stretch cotton and linen fabric art, 0.5 mm TC composite layer, soft fit, exquisite processing, elegant color, ingenious combining accessories, simple and convenient, can be used as walls, hanging partitions, and desk screens, etc.

PET-US-02H

产品尺寸：
Size：长度2400mm
宽度可定制

以简约为灵感，减少材料自身的损耗，USONG将规格吸音板加以几何设计雕刻和模具工艺，将整板加工出立体视觉格栅，让安装更加便利，适用于各类办公室墙面装饰，家庭卧室，家庭影院，高档会所

With simplicity as inspiration, to reduce the loss of the material itself, USONG will be standard sound-absorbing board geometric design engraving and mold technology, the whole plate processing out of stereo vision plate, so that the installation is more convenient, suitable for each Class office wall decoration, family bedroom, home theater, upscale club

PET整体墙面波浪系列
Wall wave series

USONG墙面三维系列，打造流畅且赋有层次感的墙面吸音装饰。USONG将造型，色彩结合，利用小面积解决了大空间的回响，效果明显。产品安装便捷，无需辅助配件，轻松完成立体墙面，受到工装设计一致好评.

The USONG wall 3D series creates a smooth and layered wall sound-absorbing decoration. USONG combines design and color, utilizing a small area to solve the reverberation in a large space, resulting in a significant effect. The product is easy to install, without the need for auxiliary accessories, and can easily complete three-dimensional walls, receiving unanimous praise from acoustic designers

PET菱形结构吸音板
Diamond structure acoustic board

利用彩纤板可塑性强的特点，将其和办公常用灯具进行结合，实现不同的造型，为极简的灯具增添了趣味和创意。既能降低空间的噪音，又能让空间更具灵动感，让空间静谧而有高级感。

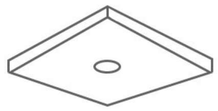

utilizes the strong plasticity of PET acoustic panel to combine it with commonly used office lighting fixtures to achieve different shapes, adding fun and creativity to minimalist lighting fixtures. It can not only reduce the noise in the space, but also make the space more dynamic, making it quiet and high-end.

PET轻奢吊顶系列
Ceiling series

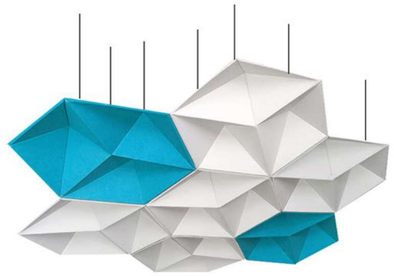

装饰性吸音吊顶，不再受限于空间，通过设计将吊顶模块化，利于小空间降噪，处理独立空间噪音。

The decorative sound-absorbing ceiling is no longer limited by space. The ceiling is modularized through design, which is conducive to noise reduction in small space.Independent space noise processing

异形结合吊顶

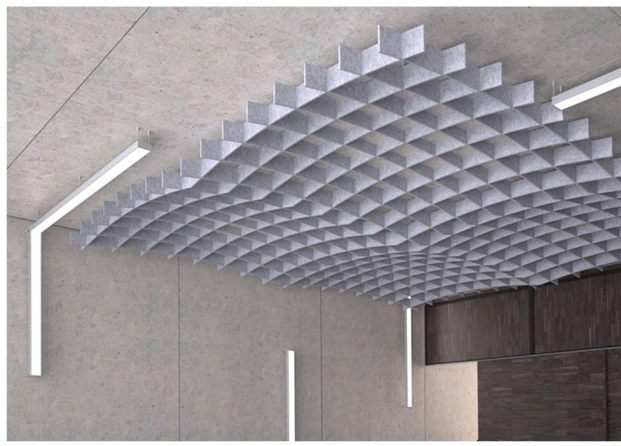

运用几何造型规律变化，设计出具有视觉三维的吊顶，不同角度欣赏，可发现结构的奇妙变化，更大化的发挥了聚酯纤维轻质、可塑性强的特点，适用于各类高档办公室酒店，大堂等场所。

utilizes geometric modeling laws to design a visually 3D suspended ceiling. When viewed from different angles, you can discover wonderful structural changes, maximizing the lightweight and strong plasticity of polyester fibers. It is suitable for various high-end office hotels, lobbies, and other places.

PET方通吊顶
Ceiling series

ECOUPP
ACOUSTICS

PET方通吸音吊顶通过热压工艺，将吸音板压制成方通，以专用配件安装在天花板。
产品大大提高顶部空间的吸音效果，颜色多样，质感高级，装饰和声学效果拔群。
是传统木质格栅、铝方通吊顶的更佳替代品。

The PET square tube acoustic ceiling is made of a square tube by pressing the acoustic panel through a hot pressing process, and is installed on the ceiling with special accessories.
The product greatly improves the sound absorption effect of the top space, with diverse colors, advanced texture, and outstanding decorative and acoustic effects.
It is a better alternative to traditional wooden grilles and aluminum square ceiling.

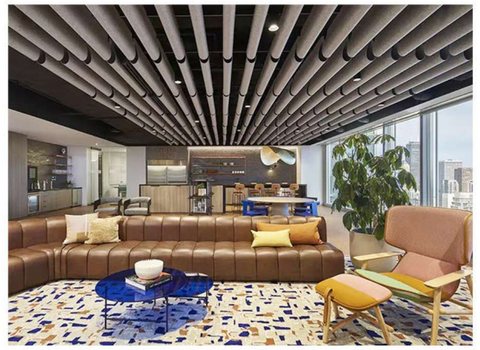

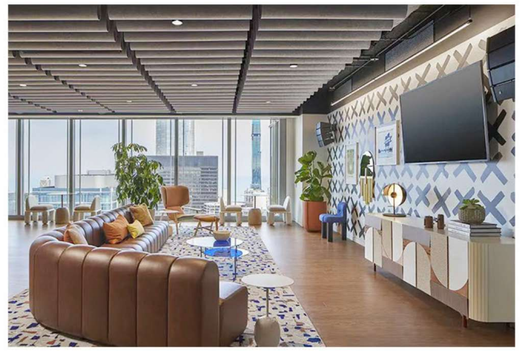

吸音软包色卡
Sound-absorbing color card

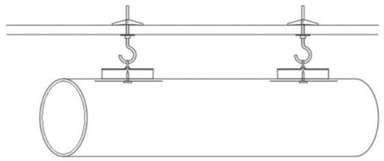

ECOUPP毛毡吊顶，轻质，简装，极简的设计，弧度造型，中空设计原理，让吸音效果增倍，圆筒和水滴两款造型圆润饱满的造型，适用于各类办公，酒店，高档场所.

ECOUPP felt ceiling, lightweight, simple, minimal design, curved shape, hollow design principle, double the sound absorption effect, two shapes of cylinder and water drop, round and full shape, suitable for all kinds of offices, hotels, high-end places

本产品面料采用优质天鹅绒和高档棉麻布。内心采用35D高回弹海绵，100%高纯度聚脂纤维。严选金属边框吸音降噪，无胶水粘合，安全环保耐磨防撞。强效吸音布艺颜色种类多，装饰性强。精纺软包与金属边框相结合，相得益彰。

The fabric of this product is made of high-quality velvet and high-grade cotton and linen. The inner part is made of 35D high resilience sponge, 100% high purity polyester fiber. Strictly selected metal frame, sound-absorbing and noise-reducing, no glue bonding, safe and environmentally friendly, wear-resistant and anti-collision. The powerful sound-absorbing fabric has a wide variety of colors and is highly decorative. The combinationof the worsted soft package and the metal frame complement each other.
